Program 040 - dimensional drawings

SWG 8140

electrical connections for mirror cabinets

For washing stands with fixing screws, the dimensions for boring must be drawn in on-site after the washing stand has been laid on the floor unit.

Washing stands without anchoring brackets have to be fixed on the wall and on the furniture-side with silicon!

Cast mineral:

The water temperature must not exceed 55° C / 131° F. Hair tinting lotions have to be removed immediately, so that staining can be avoided.

Modifications:

Technical modifications (+/- 5mm) and flatness modifications (DIN 18202) are subject of the usual material-specific modifications for construction materials, based on DIN 18202.
